EDUCATION

University of Sindh

Bachelor of Computer science

Jamshoro , Pakistan

feb 2022 – feb 2026

Govt Degree College

Pre-Engineering

Hyderabad , Pakistan

Aug 2019 – July 2021

Marks: 997/1100 (88.81%)

Student Foundation School

Computer Science

Hyderabad , Pakistan

April 2017 – Mar 2018

Marks: 637/850 (74.94%)

EXPERIENCE

Frontend Intern

Bitspro

Mar 2025 – may-2025

Hyderabad , Pakistan

- Developed responsive and scalable frontend applications using **React.js** and **TypeScript**, improving UI performance and user experience.
- Implemented modern UI designs using **Tailwind CSS** and **ShadCN UI**, ensuring consistent and reusable component architecture.
- Integrated REST APIs using **Axios/fetch** and built multi-page navigation with **React Router**, enhancing application flow and real-time data handling.
- Collaborated with senior developers in an **Agile environment** and contributed to code quality and version control using **Git/GitHub**.
- Skills: React.js, TypeScript, Tailwind CSS, ShadCN UI, REST APIs, React Router, Git/GitHub, Problem Solving, Team Collaboration

PROJECTS

FYP – HealthMate: A disease and medicine recommendation system | [live Demo](#)

- Spearheaded the development of **HealthMate**, an AI-powered disease and medicine recommendation system using Python-based machine learning models for symptom prediction.
- Developed a responsive frontend using **React.js**, **TypeScript**, **Tailwind CSS**, and **ShadCN UI**, and integrated it with ML backend via APIs for real-time data flow.
- Engineered ML pipelines to generate personalized recommendations including medicines, diet plans, workout routines, and precautions based on user input.
- Skills: Python, Machine Learning, React.js, TypeScript, Tailwind CSS, ShadCN UI, API Integration, Problem Solving

Pizza Restaurant Website | [live Demo](#)

- Developed a responsive pizza website using **HTML**, **CSS**, and **JavaScript**.
- Implemented **media queries** for cross-device compatibility.
- Applied **responsive design principles** to improve UI consistency.
- Skills: HTML, CSS, JavaScript, Responsive Design, Frontend Development

SKILLS

Languages: Javascript, Typescript, Python, Java, C, HTML/CSS

Frameworks & Libraries: React.js, React router, TailwindCSS, Bootstrap, ShadcnUI

Developer Tools: Git, GitHub, Vs code, Visual Studio, Cursor, Jupyter Notebook

DataBase: SupaBase

SoftSkills: Problem solving, Communication, Team Collaboration, Fast Learner
